ABOUT ME

Full-stack developer in development. Currently studying, taking web application development courses.

I am very passionate, constant and determined, which helps me achieve my goals. I have a good predisposition to face projects and I promise to follow it until it is finished. I have the ability to relate to people I don't know, it's easy for me to talk and include myself in any field.

I would love to keep learning and constantly advancing in the world of development.
